## **PROGRAM OVERVIEW**

The Work-4-Water program is designed to inspire individuals to create their own paths within the wastewater industry. The program prepares participants with the foundational knowledge and skills needed for success in entering the workforce. Graduates of this program will be better prepared for job opportunities and career advancement in Hawai'i's wastewater industry.

## **COURSE STRUCTURE**

#### **Attendance:**

Participants will attend a mandatory in-person orientation and Networking Event at either UHMC or Hawai'i CC to connect with potential employers. All other classes will be held virtually via weekly Zoom meetings from 5:30-7pm.

#### **Course Assignments:**

Weekly 1.5 hr self-paced webinars must be completed before each weekly virtual Zoom meeting.

## **CLASS STRUCTURE**

## **COHORT THREE**

Starts August 5, 2024

## **COURSE LOCATION**

## **Hybrid online/in-person** Hawai'i Community College (Hilo) *or* UH Maui College (Kahului)

This program is ideal for individuals seeking to start their career in the wastewater industry and it requires no prior experience.

## **COURSE TOPICS**

The program will focus on issues related to water quality in Hawai'i and the fundamental design principles behind various types of onsite and individual wastewater treatment systems. Course components include:

- The Importance of Wastewater Management & Treatment
- Design, Installation, and Maintenance of Onsite Wastewater Treatment and Disposal Systems
- Hawai'i Wastewater Regulations and Policies
- Emerging Trends and Technologies in the Wastewater Industry
- Wastewater Industry Job
  Preparedness
